## PRICING

Various prices to suit short or longform needs. Available for WET or DRY hire. Wet hire discount, with experienced 2nd AC on call. Additional charges for fuel and mileage. Contact below to enquire.

## INSURANCE

When hiring equipment from us, you will need your own insurance. This must be arranged before the first day of your shoot and cover all prep, travel, shoot and de-rig days. The policy needs to have a sum insured equal to or greater than equipment replacement value shown in your finalised quote from us. We will need to review proof of appropriate "hired in" technical equipment insurance.
